Dated 11 - 10 45

[Despatch Abstract.]

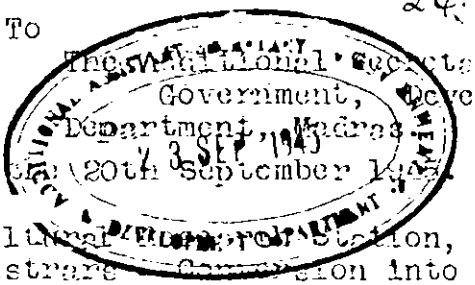
Establishments - Agriculture - Horticultural Research Station. Anantapur - Duo posts of Watch Keepers - Conversion into posts of Gardeners sanctioned.

AGRICULTURAL DEPARTMENT.

58125 A?/45.
24.9.45.

From Rao Bahadur B. Viswa Nath, C.I.E., D.Sc., F.I.C., Director of Agriculture, Madras.

To The Additional Secretary to Government, Development Department, Madras.



No.A.4.1264-45, dated the 20th September 1945.

Sir,

Sub: Establishment - Agricultural Research Station, Siruguppa - Water Registrars - Conversion into posts of fieldmen.

In G.C.No.2952, Public Works Department, dated the 22nd December 1936, Government sanctioned the employment of 6 water registrars for 9 months in the year and one water registrar for th remaining three months on a monthly wage of Rs.25/- to be paid from contingencies. The staff were under the control of the Public Works Department till March 1940 when the control of the pumping station at the Agricultural Research Station, Siruguppa, was transferred to the control of Agricultural Department - Vide G.O.No:283, Public Works Department (Irrigation), dated the 10th February 1940. Originally, it was contemplated to irr irrigation of crop all the 24 hours - both day and night and hence 7 water registrars were provided. Subsequently the idea of irrigation of crop all the day was dropped and 4 water registrars are being employed as against the sanctioned strength of 7. Out of the four, two are employed throughout the year and two for nine months in the year. The senior water registrar is also in charge of the pumping plant and stores and he is allowed a pay of Rs.30/- in the scale of Rs.30-3/2-45 - vide G.O.No.3789, Development, dated the 22nd November 1945. All the four are paid from contingencies.

2. The duties of the water registrars are of a technical nature like those of fieldmen of this department. They attend to field operations [illegible] definite quantities of irrigation water to crops [illegible] figures and maintaining records of irrigation [illegible] the agricultural as well as bulk area, which require to be discharged with greater care and responsibilit than is usually expected of those paid from contingencies. The nature of their duties is such an arduous one in that they have.

to attend to irrigation often at nights and have also to put in longer hours to cope with the programme of irrigation. Their field work has also been increased with the additional area for the Cambodia breeding and Hingani, Jonna schemes. As pointed out in para 1 above, the water registrars are paid from contingencies and are not entitled to privileges like leave, incremental scale of pay, unhealthy locality pay, etc. There is a tendency on the part of the water registrars to quit the job frequently which seriously dislocates the work on the station. If they are given the status of fieldmen on the privileges attached thereto, there is every possibility of their continuing in the post as their status will be stabilised. Works of similar nature at the Central Farm, Agricultural College, Coimbatore, are being discharged by subordinates not inferior to fieldmen.

3. I therefore request that Government be pleased to sanction the conversion of the two posts of water registrars who are employed at the Agricultural Research Station, Siruguppa throughout the year into that of fieldmen in category 4, class I, of the Madras Agricultural Subordinate Service. The Chief Engineer, Public Works Department (Irrigation) is in favour of the proposal.

Your obedient servant,

21.9.45.

for Director of Agriculture.

Sir Eu

P.W.D.U.O.
4272 25/45-1
4-10-45

The proposal to convert two temporary posts of water registrars now paid from contingencies (of fieldmen in the MABS) into regular posts involves an extra cost of Rs 466 on account of pay and dearness allowance which will also be eventually pensionary charges on their account of Rs 110 when these posts are made permanent.

In the circumstances stated by D.A., the proposal may be agreed to and the draft order accepted.
